

## Barometric pressure transmitter - 0-10V output

code: T2214

Atmospheric pressure transmitter. Outdoor, indoor use.

Barometric pressure transmitter for outdoor and indoor use. Display reading and pressure output is user selectable in these units: hPa, kPa, mbar, mmHg, inHg, inH2O, PSI, oz/in2.

**NEW - AC Power - now also powered from 24 Vac !**

### Technical data

|                                    |   |
|------------------------------------|---|
| ATMOSPHERIC PRESSURE SENSOR SENSOR |   |
| Measuring range                    | 600 to 1100 hPa                                 |
| Accuracy                           | ±1.3 hPa at 23 °C from 800 to 1100 hPa          |
| Resolution                         | 0.1 hPa   |
| GENERAL TECHNICAL DATA             |   |
| Operating temperature              | -30 to +80 °C                                   |
| Channels                           | internal atmospheric pressure sensor            |
| Output                             | 0 - 10 V  |
| Available temperature units        | hPa, kPa, mbar, mmHg, inHg, inH2O, PSI, oz/in2  |
| Configuration of output            | user adjustable from PC; measured range + value |
| Power                              | 15-30 Vdc; 24 Vac                               |
| Protection class                   | IP54  |
| Dimensions                         | 88,5 x 98 x 39,5 mm                             |
| Weight                             | approx. 150 g                                   |
| Warranty                           | 3 years   |
