

## Industrial temperature, humidity, bar. pressure transmitter - RS485 output

code: T7411

Humidity, temperature transmitter with T+RH probe on the cable. Outdoor, indoor use. For environmental monitoring.

Humidity, temperature probe on a cable. Measured values are also converted to other humidity interpretation: dew point temperature, absolute humidity, specific humidity, mixing ratio, specific enthalpy. Built-in pressure sensor.

The device is supplied with T+RH probe with 1 meter cable.
